

Siemens and Mita-Teknik sign cooperation agreement

End of February, 2014, Mita-Teknik and Siemens Industry Sector have signed a cooperation agreement to combine specific technologies, experience and know-how from both companies for the wind industry. As a first result, to be seen at this year's EWEA in Barcelona, Mita-Teknik will include safety automation components from Siemens in their control systems for the wind industry.

The goal of the cooperation is to combine specific technologies, experience and knowhow from both companies in order to serve the growing market requirements and provide the wind industry with the best possible solutions – now and in the future.

Mita-Teknik will be Solution Partner in wind for Siemens worldwide. Customers in the wind turbine industry can expect the highest knowhow and expertise from Mita-Teknik combined with the comprehensive Siemens Industry Products for the Wind industry.

The first joint solution will be a GL2010 conform Safety System for wind turbines, which will be presented at EWEA in Barcelona on 10-12 March 2014 at Mita-Teknik's booth.

"We are very excited about this new cooperation with Siemens. It is an agreement between two well-established companies in the wind industry, and I am confident that working together will enable us to create some very competitive solutions for our customers" said Jesper Andersen, CEO in Mita-Teknik, on the occasion of the signing ceremony

"Reliability and availability are key success factors in the wind industry. Integration of Siemens' leading automation technology into the portfolio of Mita-Teknik is a significant enhancement to fulfil these requirements. Customers will benefit from the combined new offer" commented Alexander Spoerk, Director Vertical Market Management Wind, Siemens Industry Sector.

"We are looking very much forward to this cooperation. The combination of many years of experience in the wind industry from Mita-Teknik and the product portfolio from Siemens as leading supplier of automation products for the industry gives the best possible platform for our customers", added Max Andersen, Sales Director Siemens Industry Denmark.
