

-1%, -5%, -10%, -20%, -39%

What can you do?

two parties

- RES producers
 - lose income
 - get disconnected
 - running out of time
- EDCs (*CEZ, EVN, Energo-Pro*)
 - receive income
 - can wait and see
 - workable solution

two angles of attack

pro-active

- fight the decision / situation
- mitigate damage

destructive

- make situation:
 - unworkable**
 - unbearable**
 - dangerous**

pro-active

legal action

- SA court case 07/12 tariff cuts
- SA court case retro-active cuts
- EU DG competition complaint
- EU DG energy complaint
- Energy Charter case
- BG competition commission

status

- ✓ BGWEA
- ✓ >250 cases
- ✓ BGWEA
- ✓ BPVA, >150
 - In process
- ✓ BPVA

pro-active

political action

- BG banking association
- EBRD
- Chinese Development Bank
- Japan Bank for International Cooperation
- 15 Ambassadors
- chambers of commerce / trade representations
- political opposition (in/out of parliament)
- TV, radio, print, online

Why be **destructive**?

to make everyone else as
miserable as we are, so that they,
too, want to fix this...

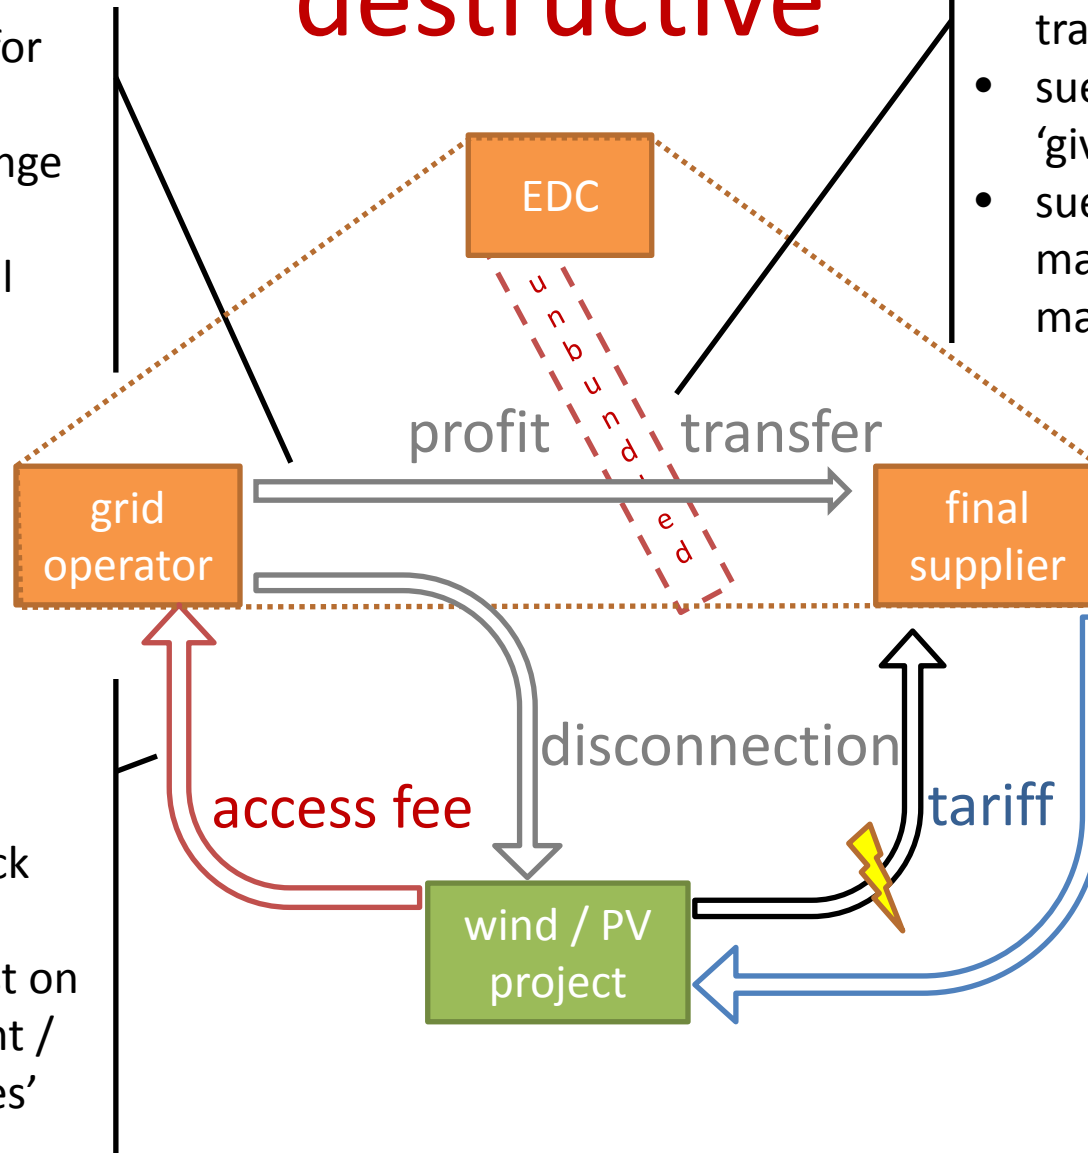

destructive

as a shareholder

- request vote on profit transfer
- sue management for 'giving away money'
- sue parent company, majority shareholder, management

as a citizen

- check accounts for provisions
- alert tax / exchange authorities
- consider criminal complaints

as project operator

- don't pay
- pay but object
- claim money back
- pay guarantee instead and insist on 'separate account / no encumbrances'

How do you get this done?

TOGETHER

join us: share, copy, paste

and do not ever silently accept
(i.e. no acquiescence)
