

# A 30% renewables target for 2030.

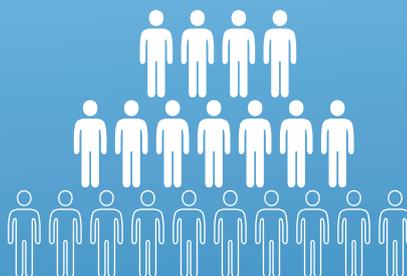

Better for Europe's energy independence.

Better for Europe's economy.

Better for Europe.

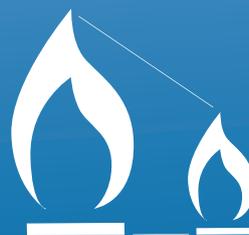

**With 30%  
renewables...**

568,000  
more jobs

€260 billion more savings  
on fossil fuel imports

Three times the reduction  
in gas imports (26% vs 9%)

Increased GDP rather than  
a cut (+0.46% vs -0.45%)

**... compared to the  
European Commission's  
proposed 27% target**
