

Dear editors,

From March 10 to 12, 2015, Siemens will be present at the European Wind Energy conference and exhibition “EWEA Offshore” hosted by the European Wind Energy Association (EWEA) in Copenhagen, Denmark. As a leading full-scope supplier of offshore solutions, Siemens will showcase its current portfolio of cutting-edge transmission solutions, wind turbines and service concepts.

Please save the date for our press conference:

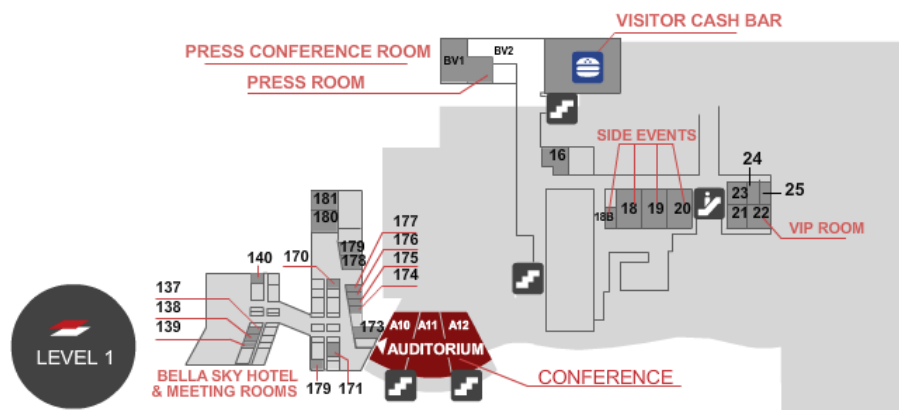

**“Driving down costs of offshore wind:  
turbine technology, grid access and service innovations“**

Known as a pioneer and leading provider of offshore wind power solutions, Siemens technology plays a substantial role in building up a clean electricity supply around the globe. Join us as we present the newest solutions from our innovative minds, including a new wind turbine, new grid access concepts, and the industry’s first purpose-built service operation vessels.

Hosted by:

- **Michael Hannibal**, CEO Offshore for the Siemens Wind Power Division
- **Tim Dawidowsky**, CEO Transmission Solutions for the Siemens Energy Management Division
- **Torben Bang**, COO Siemens Wind Service for the Power Generation Services Division

The conference is taking place **on Wednesday, March 11 from 2-3 pm** at the EWEA press conference room.

Please find attached a summary of all panel discussions and other press conferences in which Siemens is participating.

In case of any questions please do not hesitate to contact us.

Looking forward to meeting you in Copenhagen.

Best regards,

Siemens Press Department
